

A WIDE CHOICE OF DOOR FURNITURE AND COMBINATIONS ARE AVAILABLE

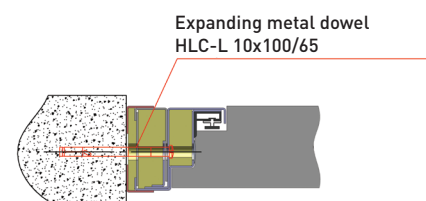

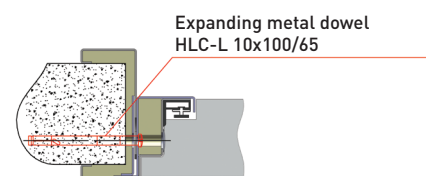

- All our door sets and furniture are assembled and tested at the factory.
- We offer a wide range of premium door furniture from recognised suppliers :
 - All types of door handles
 - Door closures (with arms & slides)
 - Closure covers
 - Panic bars 1 point, 2 point 3 point
 - Locks (safety, electric....)
 - Fire release/Europad
 - Door stops (standard or magnetic)
 - Contacts de position

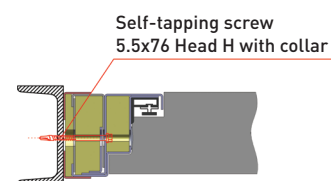

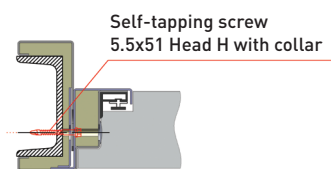

QUICK AND EASY INSTALLATION : QUICKFIX®

- Our door sets are delivered ready to install (factory fitted door furniture, frames and leafs tested at the factory).
- Our frames are pre-drilled and setting them up only takes a few minutes.
- A counterframe system incorporating the full thickness of the partition allows an excellent finish over the entire periphery of the opening.
- Each door set is supplied with its complete fixing kit (sealant, screws, seals, mounting wedges, fixing caps) allowing quick site installation.
- Our solutions are designed to fit any type of opening.

TAILOR-MADE SOLUTIONS

- Certified performances of $R_w (C ; C_{tr}) = 50 \text{ dB} [-3 ; -9]$.
- Custom dimensions up to 3000 x 3000 mm high (beyond see model BSG).
- Customisation from conception to design (single, double, tiered, glazed, access hatch).
- Corridor installation.
- Robust solutions built from 2mm thick galvanised steel sheets.
- Internal reinforcements to receive all types of equipment.
- Indoor & outdoor installation.
- Threshold 3mm thick (brushed stainless steel finish) for easy access.
- Ultra-resistant lacquer finish (polyester power paint oven-baked).
- Manufactured in France.

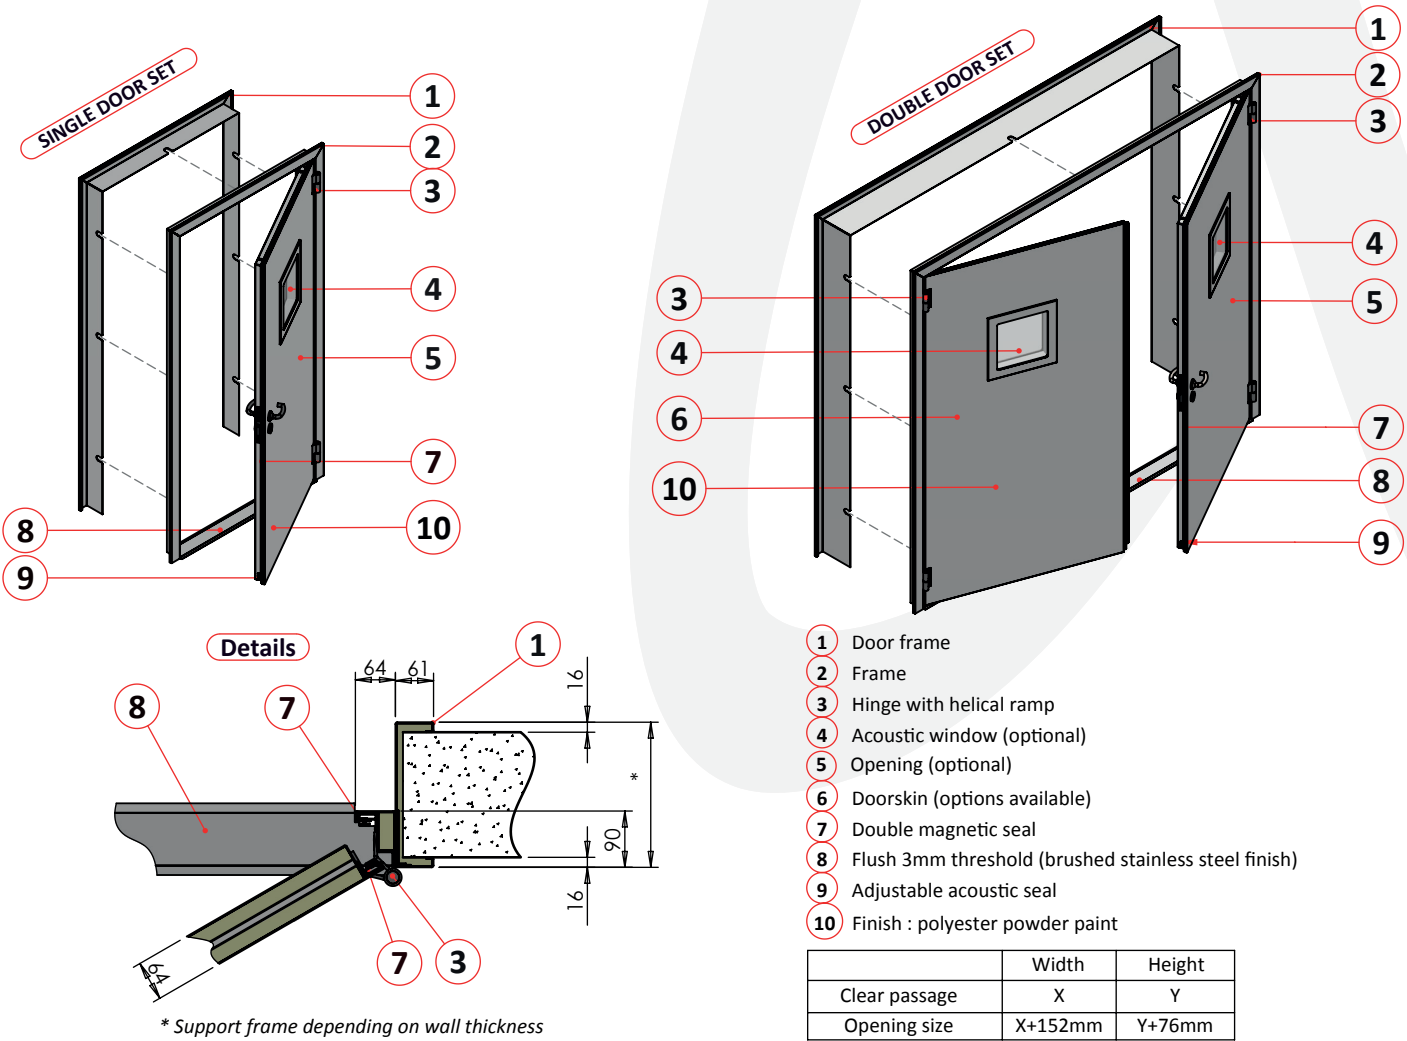

OPTIMUM ACOUSTIC SEALING,
GUARANTEED COMPRESSION AND A PERFECT FINISH

- Between the door and the frame due to 2 elements of design (frame + against frame).
- Between the frame and the door leaf, through 2 magnetic seals on the entire periphery of the door set.
- In the lower section of the door set due to hinges with helical ramps combined with an adjustable buffer system.
- A leaf core integrating a multi-layer construction with variable density.
